Josef Von Sternberg Interviewed

Famous Director Finds Chinese People Charming

(BY "REDINCAM")

Josef Von Sternberg, oft-quoted Svengali of Marlene Dietrich, arrived in the Colony yesterday morning on board the "Chichibu Maru," from Shanghai and will spend four days in Hong Kong before leaving by the "Chenonceaux" for Siam.

No one was aware that he was in the Colony, not even the local M.G.M. office!

I found Von Sternberg in his room at the Hong Kong Hotel. He was seated at a table, busily engaged in conversation in a foreign tongue with a friend.

I stated my business.
"Come back in ten minutes—exactly ten minutes," stated the eminent director.

When I returned—exactly ten minutes later to a split second—I was courteously requested to be seated. Mr. Von Sternberg's male companion left the room. I was alone with a man who knew the minds of 20,000,000 people (to use his own words). The purpose of the trip was to "inhale not exhale," I was told. Possibly contrary to my expectations of a Hollywood man, he had not even a picture to give me for publication.

NEVER SEE THE PRESS

In America, according to Mr. Von Sternberg, he never met any representatives of the press. "Had you not walked in with such a hopeless look on your face, I would

not have 'seen' you. You never even telephoned me to see if I would like an interview. Most certainly if you had, I would have said No!"

WORKS ALONE

Extraordinary man, this Von Sternberg. Handsome, moustached and bearded, hair greying, he is a sculptor and artist as well as a director. He only makes one picture a year or possibly one in two years.

Most of his pictures he admitted, were world beaters. Before production actually commenced, he worked day and night for six months. He edited it, checked up the dialogue, took various pictures from different angles, besides planning the scenery. And he worked alone.

KEEN COMPETITION

A pressman whom Von Sternberg met at a reception in Shanghai, inadvertently told the latter that "you directors get away with a lot." Von Sternberg told me that he could not accept this attitude.

(Continued on Back Page.)

Josef Von Sternberg, the famous Hollywood motion picture director, who arrived in Hong Kong yesterday, is here seen in a recent photograph with Marlene Dietrich, the well-known screen actress.

WARSHIPS IN HARBOUR

The following warships were in harbour yesterday:

North Wall: H.M.S. Duchess, Diana.

South Wall: H.M.S. Dainty.

West Wall Dock: H.M. Submarine Regulus.

In Dock: H.M.S. Moth, Lowestoft.

Talkoo Dock: H.M. Submarine Regent.

Foreign: U.S.S. Mindanao, Chinese gunboats Chu Chien, Chu Tai, Chu Kuan, Chu Yu and Kiang Chen.

The Chinese gunboats Yung Chien and Yung Chi left yesterday morning.

IN WIRELESS TOUCH

The following ships are expected to be in wireless communication with Hong Kong Radio to-day:

City of Rayville, Tajika Maru, Rawalpindi, Tjisaroea, G.G. Paul.

Donner, Akagisan Maru, President McKinley, President Van Buren, La Plata Maru and Chitral.

NEW POLICE INSTRUMENT

Ballistic Microscope Fitted With Camera

History will be made in local crime records, when a new scientific instrument will be used at the Kowloon Police Court next week for the first time since its arrival in Hong Kong a few months ago.

This instrument is the forensic compression, ballistic microscope, which is fitted with a camera that is able to take photographs through the microscope.

It will be used in connection with an attempted armed robbery incident which occurred on September 11, at 10.45 p.m. when three armed robbers entered the servants' quarters of the home of Mrs. Barretto, 2, Granville Road, Kowloon.

The prosecution hope to be in a position to prove that a bullet alleged to have been fired by one of the men in his efforts to frighten the servants, was the same as three unexpended rounds found in the revolver.

FED UP WITH NAVY LIFE!

British Sailors Stow Away To Manila

Manila, Sept. 18.

Seaman Lewis and Stoker Brown, members of the crew of H.M.S. Adventure arrived here yesterday, having stowed away on board the President Taft. They were detained on board and are returning to Hong Kong to-morrow by the same vessel.

They stated that they were fed up with Navy life.

AUXILIARY KETCH LAUNCHED

For Service In Rabaul

The auxiliary ketch "Induna" was successfully launched at the Kowloon Docks on Thursday morning the christening ceremony being gracefully performed by Miss Motra Corrigan, daughter of Mr. A. Corrigan, Marine Superintendent of Messrs. Burns Philp & Co., Ltd., Sydney, Australia.

The "Induna" is being built by the Hong Kong and Whampoa Dock Co., Ltd. for service in Rabaul, and has a beautifully carved wooden figure head of a woman on her bow. The hull is of teak, and her dimensions are 81 ft. overall, 20 ft. beam and 7 ft. 10 ins. depth. For the carriage of coir, holds are fitted forward and aft of the motor room.

The crew will be accommodated forward, and the officers in a teak house on the deck aft.

Although the "Induna" will be used principally as a sailing vessel, a Ruston Proctor three cylinder Diesel engine of 90 B.H.P. running at 600 R.P.M. has been installed for auxiliary purposes.

LAUNCH DISASTER ON THE NILE

Heavy Death Roll

Cairo, Sept. 18.

Two hundred railway employees and their wives and children, it is feared, were drowned in a collision on the Nile.

A launch carrying an excursion party came into collision with a barge and sank immediately.

Only four were saved. All the victims were Egyptians.

CHINESE WAYLAIED IN STUBBS ROAD

Attacked By Four Men And Robbed

Waylaid while on his way home on Thursday night, Chan Sau Cheung, cook boy employed at No. 48 Stubbs Road, the residence of the Consul-General of the Netherlands, was assaulted and robbed of money.

According to a police report of the incident, Chan was returning home at 11.45 p.m. accompanied by a friend, named Yeung, whom he had engaged as the new house cooler.

Chan was accosted by four men, dressed in black, one of whom flashed a torch in Chan's face, and stated that he was a police officer.

Chan was then searched and relieved of \$3.80.

Another man pinioned Chan's arms and hands and struck him. Chan lay on his side for about half-an-hour and then returned to No. 48 Stubbs Road where he made a report to his master.

During the struggle with the robbers Chan lost his watch.

Five Hundred Dollar Peak Robbery

Haul Of Jewellery

Mr. D. C. Edmondston, living at No. 358 The Peak, was the victim of a robbery, according to a report made to the Police.

The loss is estimated at over \$570.

Mr. Edmondston, in his report, stated that between 11 p.m. on Thursday and 8 a.m. yesterday

some person stole a wrist watch valued at \$12-12s. five rings, one set with jade and white gold, valued at \$35, a pair of bangles with diamonds valued at \$10, another pair of bangles with diamond and numerous other articles, all to the total value of \$574.50.

Police investigations are being conducted.

'Dorado' Leaves

Miss H. V. Stuart, Mr. A. Alcan and an Italian, Dr. O. Fischer, were passengers aboard the R.M.A. "Dorado" when she left yesterday morning for Penang.

COLONY HEALTH

Two cases each of typhoid and diphtheria were notified to the local Health authorities on Thursday.

The "Dorado" also carried 69,873 kilos of mail and freight totalling 10,500 kilos.

GERMAN PEASANT CELEBRATION

Preparations For Local Fete

(BY "QUEX")

I have been given an opportunity to see something of the preparations being made for the German Peasant Festival to be held here on October 3. If only part of the expectations are realised, this festival, unique of its kind, will be the clou of the season.

The entire German Club on the fourth floor of the building at Connaught Road, will be decorated to resemble a German village, while the third floor, having been rented for the evening will house the Beer and Wine cove.

The programme for the evening is varied. The Fete will be opened by several peasant dances, there will be a peasant play, a bowling alley, peasant songs, every member of the German community being dressed in peasant's attire, and visitors, a large number of whom will be individually invited by their German friends, in evening dress.

The Fete will commence at 9 p.m., and will continue till the small hours. Many song hits and pieces of poetry have already been submitted by members of the community, depicting incidents of the past year, which will be presented with popular peasant tunes. One of the Colony's best bands has been engaged for the evening.

This German harvest festival is based on tradition. From ancient times the German peasant on one day of the year laid down his tools and gave vent to rejoicing, thanking providence for the harvest during the year.

During the War and in the troubled years afterwards, a time that told hard on the peasantry of the Reich, festivals grew scarce, and the peasant had only time to think of the mortgages. Since however the National Socialist movement rose to power and inaugurated its policy of freeing the peasant from debts that threatened to ruin him, and once more recognised in the peasant as the vital part of the nation for its welfare, these traditions were revived, and made a day of national rejoicing.

On October 3, the entire Reich will gather to publicly express its gratitude to the peasant for unceasing toil during the year, and the communities abroad will celebrate this day on similar lines as in Germany.

PAGE FOR THE CHURCHES

CHURCH'S GREATEST CHALLENGE

MODERN WORLD SOULLESS

(BY "SCRUTATOR")

The Christian Church's loyalty to the truth of her Founder is being tested more strenuously to-day than ever before in her history.

It is not only the challenge of Communism and the Red Terror, nor even only the challenge of an indifferent and sceptical youth which she has to face, but a challenge which is embodied in the very physical existence of the modern world itself. The deepest and most searching of all demands is being made upon the Church, she is being asked to sacrifice her own life to become the soul of the world. The modern world is soulless, is completely unaware of itself and is bearing us all blindly to disaster.

The world is becoming smaller and smaller, nations are being confined into ever diminishing space and they have not learned how to live together peacefully under the new conditions. Everywhere the black death of a rank materialism is creeping unhindered and unimpeded over the mind of man and what could be the immense blessing of our modern scientific age is becoming the curse of humanity. The situation is fraught with the possibility of immediate tragedy unless a fresh access of spiritual power is given to meet the tremendous needs of the hour. If the Christian Church cannot supply this need she will eternally lose her reality and her last vestige of influence will disappear. In spite of the depressing evidence of Russia, Germany, Austria, Italy and Spain, we believe that the Church has within her the power to meet the demand, but whether or not she is prepared to pay the price which its use requires the remaining years of this century will record.

AGE OF SCIENCE

That ours is an age of Science, no will be found to deny; an age conspicuous above all others for its discovery and invention; an age in which, though we ourselves belong to it, we hardly know whether to admire most its breathless rapidity of progress, the genius of its investigators, or the variety and greatness of their achievements. Our minds are filled with the conceptions of Science, our language is saturated with her phraseology. Miracles are her stock in trade. She raises her hand and averts a pestilence. Her voice travels on the ether faster and farther than did the voice of Jehovah. She has pene-

IMPORTANT TO LIVER SUFFERERS

By Dr. Quignon Of The Faculty Of Medicine, Paris

Just now I am kept very busy by an epidemic of "liver" disorders—a great many people feeling "out of sorts," bilious, depressed and unable to enjoy their food. Undoubtedly the best remedy for an upset liver is provided by certain famous Continental Mineral Springs, but science has now made it possible for all liver sufferers to enjoy, in their homes, all the benefits of Continental Spa treatment, at little cost. By reproducing in crystalline form the essential principles of seven world renowned Spas, including those at Vichy, Carlsbad, Aix-les-Bains and Marienbad, "Alka Saltrates" provides what is probably the finest liver tonic and corrective known. It is obtainable from all high class Dispensaries and Stores.

To men and women who are feeling liverish and "out of sorts," and to those who are suffering from Rheumatism, Lumbago, Kidney trouble and High Blood Pressure I can recommend "Alka Saltrates" with confidence and I advise them to start the treatment without delay.

trated the secrets of creation and surprised the movements of the stars. She has reduced the world to a very small place.

That ours is also an age of pleasure, as distinct from recreation, has always made a very strong appeal to men of all ages, and while the Romans had their courtesans and their triumphs, their gladiatorial arenas and blood-sports, we, in a more effeminate manner, have added to the age-old vices of mankind worse amusements than even Nero could devise. True it is, that our pleasures are often just celluloïd takes, but Science has seen to it that their seeming reality is guaranteed. To enjoy the many benefits of scientific discovery and the pleasures which with her aid the leisure of millions is filled, it has become increasingly necessary to possess an abundance of money. Money has become the symbol of self-gratification and a low form of self-gratification, the goal of the lives of the majority of mankind of all races.

TRAGICALLY TRUE

This may seem a large and summary definition of the life-purpose of the majority of men and women, but, from the conscientious parents who desire for their children, professions, which shall be above everything else, lucrative, down to the most debauched rake of the lowest under-world, it is substantially and tragically true: to make it complete of course, many things would need to be added and elaborated, but in essence the statement is incontrovertible. And so to the eyes which are open, there appears the smallest world in history over-run with the greatest host of money-mad people, each person seeking to grab for himself the utmost he can steal from his fellows.

Until now the Christian Church has failed to face the whole situation and has hidden her failures behind a variety of expedients; she has attacked gambling, contraceptives, drunkenness but has failed to catch a vision of the terrible enormity of her task—the creation of that consciousness of life and of the universe, of life as a brotherhood and of the universe as a home, which the provisions and achievements of modern Science and Economics have made a physical reality. "To create the spirit capable of living harmoniously in this new physical world is the work of the Church. To do it she may have to die! Certain it is that she will have to give up many of the things, money, social prestige, and temporal power, which she at present values, and will in the end have to go forth as went her Master, naked to suffer. The Reign of God is verily at hand, and what was once labelled as a mere counsel of perfection is now a stern reality, the only means of world salvation, obedience to Christ's command, "Love one another."

FATEFUL QUESTION

This command, moreover, is now not only the challenge of the life of Jesus of Nazareth, it is the demand made by the very tissue and texture of our social and economic lives. The fateful question whether or not we will be converted to a true spiritual acceptance of life is the same as when it was first uttered, but the alternative is no longer the mythological hell of the early Christians. The wheel has turned full circle, and what was once the challenge and demand of a single individual life has become the urgent requirement of the whole natural order. Christianity, from being a supernatural religion has made its great issue in the natural world.

To recognise and accept the truth of life to-day requires the same upheaval in personal existence and thought as the acceptance of the truth of Christ meant nineteen hundred years ago. Christianity still means all or nothing. For a long time it has meant very little, but now that it is writ large over all the world it means everything. The word has been made flesh again in a grim and awful way—not in the body of one Man is it manifested but in a world-body has the new incarnation of the will of God swept over us. Now that we are one body we cannot be one body; now that the nations of the earth are physically united by scientific achievement, they cannot attain the spiritual unity which is necessary for the successful continuance of their very physical existence. Now that we are members one of another, we cannot be members one of another. Our only salvation is in the Church which is the body of Christ.

NEED OF SALVATION

Can the Church rise superior to her own dissensions and divisions? We believe that she can and that she will, that in Christ she will prove herself to be the saviour of the world—of the new world which is still so terribly unconscious of her need of salvation. The Church's story is one of prolonged but heroic struggling against uncountable difficulties, and there is much in it that gives us courage to believe that she will again triumph in her loyalty to Christ. "Hated of all nations" wrote Tacitus of her, within the first decade of her existence, and it may be that his words will be fulfilled again, but even though she should fall, as Christ did, to win all men to the truth, she will have obeyed his command, the command, which of old-time was spoken on the quiet green hills of Galilee, but which to-day is graven upon the world itself, the new

"MATTER"

CHRISTIAN SCIENCE LESSON SERMON

The subject of the Lesson Sermon in all Christian Science Churches to-morrow, September 20, will be "Matter."

The Golden Text will be "That which is born of the flesh is flesh; and that which is born of the Spirit is spirit." (John 3: 6.)

Amongst others, the following citations from the Bible will be read. "Whom shall he teach knowledge? and whom shall he make to understand doctrine? For precept must be upon precept, precept upon precept; line upon line, line upon line; here a little, and there a little: And seeing the multitude, he went up into a mountain: and when he was set, his disciples came unto him; And he opened his mouth, and taught them, saying, Blessed are the poor in spirit: for theirs is the kingdom of Heaven. Blessed are the meek; for they shall inherit the earth. Blessed are they which do hunger and thirst after righteousness: for they shall be filled. For I say unto you, That except your righteousness shall exceed the righteousness of the scribes and Pharisees, ye shall in no case enter into the Kingdom of heaven. Be ye therefore perfect, even as your Father which is in heaven is perfect." (Isaiah 48: 17-18, Matthew 5: 1-3, 8, 20, 48.)

The Lesson Sermon will also include the following passages from the Christian Science Textbook "Science and Health with Key to

the Scriptures" by Mary Baker Eddy. "Emerge gently from matter into Spirit. Think not to thwart the spiritual ultimate of all things, but come naturally into Spirit through better health and morals and as the result of spiritual growth. Not death, but the understanding of life, makes man immortal. The belief that life can be in matter or soul in body, and that man springs from dust or from an egg, is the result of the mortal error which Christ, or Truth, destroys by fulfilling the spiritual law of being, in which man is perfect, even as the Father which is in heaven is perfect." When we fully understand our relation to the Divine, we can have no other Mind but His, no other Love, wisdom, or Truth, no other sense of Life, and no consciousness of the existence of matter or error. That matter is substantial or has life and sensation, is one of the false beliefs of mortals, and exists only in a supposititious mortal consciousness. Hence, as we approach Spirit and Truth, we lose the consciousness of matter. The variety of Mind shows conclusively how it is that matter seems to be, and is not. Divine Science, rising above physical theories, excludes matter; resolves things into thoughts, and replaces the objects of material sense with spiritual ideas." (Pages 485, 205, 278, 123.)

BRITISH FILM OF NAVAL LIFE

Fleet Manoeuvres As Background

A naval picture which will make British film history is promised by Herbert Wilcox. He is to take a complete production unit to Scapa Flow and "shoot" the autumn manoeuvres of the Atlantic Fleet. This material will then form the background for "The Navy Eternal," a picture based on a story of the same name by "Bar-timeus."

"It will be a comprehensive and authentic panorama of life in the Navy below as well as above decks," Mr. Wilcox said yesterday. "The Navy League and the Admiralty are granting the fullest possible co-operation. The Admiralty is permitting the use of battleships and also lending liaison officers to assist in the making of the film."

The plot of "The Navy Eternal" is topical, for it deals with the Navy's work in rescuing British subjects from a storm centre during a revolution in South America. Captain Norman Walker, who made "The Middle Watch," will direct, and Sir Guy Standing, the sailor-actor, who was the colonel in "Bengal Lancer," has been offered the role of a British consul.

"SAN FRANCISCO"

In "San Francisco," showing to-day at the King's and Alhambra Theatres, Metro-Goldwyn-Mayer has again made a sensational picture.

It brings together for the first time three of the most popular stars of the screen—Clark Gable, Jeanette MacDonald and Spencer Tracy.

It was directed by W. S. Van Dyke, who never misses in correctly feeling the pulse of the public to provide for them the expected tempo in all the films he directs.

It brings again to the screen that lovely voice of Miss MacDonald who covers a wider range of musical numbers than she has ever accomplished before—not only the most difficult operatic arias, but ragtime tunes and even beautiful religious hymns.

"San Francisco" is the story of Blackie Norton, lord of the old Barbary Coast before the San Francisco disaster in 1906. Into his resort wanders a small-town girl with great ambitions to become a singer. Gable, as Blackie, engages the girl to entertain his rowdy customers and from the dance hall she rises to heights as an opera star to thrill the hearts of San Francisco's music lovers. Later she returns to Blackie, who does not realize the depth of his love for the girl until he finds it in the destruction and suffering of the San Francisco disaster.

The supporting cast includes Jack Holt, Ted Healy, Shirley Ross, Jessie Ralph, Harold Huber, Margaret Irving, Al Shean, and Roger Imhoff.

The picture was produced by Bernard Hyman and John Emerson.

CLARK GABLE AT FOUR CINEMAS

Variety Of Roles

Local fans of Clark Gable, the popular film star, should be more than satisfied this week-end as he can be seen at no less than four cinemas.

"San Francisco" with Gable, Jeanette MacDonald and Spencer Tracy, is being shown simultaneously at the King's and Alhambra Theatres while the Majestic Theatre is screening "Wife Versus Secretary" with Myrna Loy, Jean Harlow and Clark Gable.

At the Oriental Theatre there is showing "Call of the Wild" in which Gable is co-starred with Loretta Young. Jack Oakie is also in the cast.

EX-ARCHDUCHESS DIES A BEGGAR

Famed In Pre-war Vienna Days

In one of the poorest quarters of Warsaw a cheap coffin, containing the body of a beggar woman who had died at the age of 58, was lowered into the earth on Sept. 2.

There were no mourners, no flowers.

Yet the name on the simple plate, "Wilhelmine Adamowicz-Woelfling" was for years before the war the toast of fashionable Vienna.

Wilhelmine Adamowicz-Woelfling was the daughter of a humble farmer on the slopes of the Carpathians.

As a girl of 20, says the Exchange Telegraph, she went to Vienna, and there became the toast of the dashing cavalry officers.

She came under the protection of Count Otto von Freutenberg.

Some years passed, and she came under the notice of the Archduke Leopold, who for her sake renounced all his titles and became Leopold Woelfling. She married Leopold and the alliance lasted for three years.

Then Wilhelmine tired. She was denied the life of frivolity for which she hungered as Leopold sought the world of scientists and mystics.

The pair were divorced and Wilhelmine received a handsome settlement.

Once again her Vienna residence

FRIEND OF QUEEN ALEXANDRA

Lady Kennedy, wife of Sir Robert John Kennedy and sister of Viscount Bangor Speaker of the Ulster Senate, died last month at Cultra Manor, county Down. She was 76.

Lady Kennedy, who was a daughter of the fifth Viscount Bangor, married Sir Robert Kennedy 53 years ago. Through his work in the Diplomatic Service she travelled extensively, and was the first European woman to journey through some parts of Asia. She made one particularly hazardous journey 2,000 miles through Lhorssar, Persia.

In her travels Lady Kennedy collected some wonderful antiquities, one of which was a 400 years' old pipe of solid gold and enamel given her by the Grand Vizier of Persia.

She was a friend of Queen Alexandra and a Dame of Grace of the Order of St. John of Jerusalem. She leaves four daughters.

She became a famous rendezvous for gallants—so much so that in the end Wilhelmine was asked by the government to leave the capital.

For many years she was well known in the capitals of Europe. After the war she went to Poland, and lived a modest existence in one of Warsaw's suburbs.

Tiring of her semi-imprisoned state, she tried to remake her fortune on the Stock Exchange. She lost all she had.

She came down to beggary on the steps of a Warsaw church. Often she told the story of her past to those who would listen. Nobody believed her: they thought her mad.

Leopold Woelfling died in Berlin some months ago, also in poor circumstances. He had appeared in cabaret.

KOWLOON RESIDENT FINED

Incident On Castle Peak Road

TRAFFIC OFFENCE ADMITTED

Driving without due care and caution was the charge brought against R. Baldwin, of No. 9 Middle Road, at the Kowloon Magistrate's Court before Mr. Q. A. A. Macfadyen yesterday.

Admitting guilt, the defendant was fined \$15.

Traffic Sergeant W. McHardy stated that on August 9, the defendant was driving his car from Castle Peak towards Kowloon, and arriving at the village of Tsing Lau-tay, he passed a private car T315 driven by Mr. Au Yung-sing.

At that time, a motorcycle and another car were parked on the left side of the road. Car No. T315, on seeing the motorcycle, drew to the centre of the road, and defendant, who was behind, continually blew his horn. Car No. T315 drew to the left and practically stopped to allow the defendant to pass. Sergeant McHardy added that the car had not drawn into the left and stopped, the defendant would have gone over the bank. There was no room to pass at all.

Defendant deposed that he could not recall the particular incident as he was not sure he was on that road on the day in question.

Sergeant McHardy had the word of Traffic Sub-Inspector Brittain that the incident did occur that day.

The Magistrate remarked that the Castle Peak Road was particularly dangerous, but taking defendant's good record into consideration, he would only impose a fine of \$15.

RETURNED BANISHEE

For returning from banishment, Fung Chat, 35, unemployed, was sentenced to 12 months' hard labour at the Kowloon Magistrate's Court yesterday.

The excuse that the defendant gave was that he was short sighted, but Det. Sgt. Riddell, prosecuting, said that the defendant knew that he was in the Colony illegally.

Mr. Q. A. A. Macfadyen, disbelieving defendant's story.

THE HEALTH OF SCOTS

What The Past Year Revealed

LOW PHYSICAL FITNESS

The problems arising from a "steadily increasing" incidence of cases of incapacity in Scotland are comprehensively examined in a report issued by the Department of Health for Scotland recently in regard to the year ending June 30, 1935. The report, dealing with Scotland's insured population, has a special significance on this occasion for it gives the fruits of study of statistics over a five years' period.

The statistics, it is stated, indicate the need for intensive study of the predisposing and causative factors concerned in disease and defect, the nature and extent of which, hitherto, have been merely matters of speculation.

During the year under review the number and total duration of completed incapacities were appreciably greater than during the year immediately preceding. The number was 16 per cent., and the total days of sickness 10 per cent. greater than in 1933-34. These increases were largely due to the influenza epidemic in the early months of 1935.

The morbidity statistics clearly indicated a level of health and physical fitness very much below not only what it should be but what might be. Much sickness was attributable directly or indirectly to general factors—housing, defective diet, poverty in the wide sense—and the deleterious aspects of occupational environment.

FALL OVER CLIFF PROBED

Absence Of Witnesses Causes Adjournment

Further enquiries into the circumstances under which Teng Beng Oei met his death were made yesterday at the Central Police Court before Mr. W. Schofield, as Coroner. Teng Beng Oei was found dead at the base of a cliff, opposite the Blind Home, Pokfulam, on July 7.

Mr. Peter H. Sin held a watching brief on behalf of the deceased's family.

The jury comprised Messrs. Wali Mohamed Meral (foreman), Walter Maueishagen and J. H. Maycock.

Previous evidence taken established that the deceased had attended a lunch party at the Hotel Cecil and later in the evening, a dinner party at Aberdeen. At both these functions he consumed about one and a half pints of liquor. Leaving the party in company with Mr. Robinson, Mr. Stanley Chan and Mr. Oei Tjong-hong, deceased travelled in a motor car. While in the car deceased became quarrelsome and despite the pacification efforts of the others, descended from the car in anger and ran along the road as though to leave the party.

He tried to stop a passing taxi. He was then seen to disappear. Robinson, Chan and Oei went to the place where he had apparently fallen and there found him lying at the bottom of the cliff. Deceased was then taken away in an ambulance.

Corroborative evidence regarding the previous statements was given by Mr. Tang Hon-ye.

Owing to the absence of Mr. Robinson and Mr. Stanley Chan, the hearing was adjourned until September 25.

OPIUM FOUND ON SHIP

Hearing Again Adjourned

Yeung Chan Po appeared before Mr. S. F. Balfour at the Central Police Court yesterday on remand charges of doing an act preparatory to exporting opium on board the s.s. "Hozan Maru" on July 29, and the possession of 5,600 taels of raw opium.

Mr. M. J. Abbott, Assistant Crown Solicitor, appeared for the Crown, while the defendant was represented by Mr. Hin Shing Lo.

It will be recalled that when R. O. Ward and a party conducted a search on board the s.s. "Hozan Maru" five wooden cases were found in one of the holds. In these cases, were tins, each tin containing opium to a total quantity of 5,600 taels. The consignor of the cases was the Nam Lung firm of which firm, the defendant was the manager. Defendant stated that the cases were the property of Mei Kee.

In connection with the case, another, Mei Kee, was charged but this man had jumped his bail after pleading guilty.

At the last hearing, defendant denied knowing that the boxes contained opium.

Statements saying that the property belonged to Mei Kee were read, after which the hearing was adjourned.

FALSE PRETENCES ALLEGED

Linseed Oil Obtained From Dodwell & Co.

Leung Kau Pang, aged 27 years, unemployed, appeared before Mr. S. F. Balfour at the Central Magistrate's Court yesterday charged with obtaining 150 drums of linseed oil from Messrs. Dodwell and Company, by false pretences.

Mr. J. Hunter appeared as the complainant.

For the prosecution, Detective Sergeant C. T. Byron applied for 24 hours' remand which was granted.

The drums of oil are valued at \$1,701.13.

POSSESSOR OF HEROIN PILLS

Woman Sent To Gaol For A Year

Charged with the possession of 9,000 heroin pills, a woman, Chan Shun, of No. 58 Wellington Street, second floor, appeared before Mr. S. F. Balfour, at the Central Police Court yesterday.

R. O. Ward, prosecuting, asked his Worship to inflict the maximum penalty as it was a serious case.

The defendant was sentenced to one year's hard labour and was additionally fined \$2,500 with the option of six months' hard labour.

DUTIABLE TOBACCO

Appearing before Mr. S. F. Balfour, at the Central Police Court yesterday, Yui Sau, 55, widow, was charged with possession of dutiable tobacco at Wing Lok Wharf, Connaught Road.

R. O. Grummitt asked his Worship to take a serious view of the case, as it was hard to keep track of cases of this nature.

The defendant was fined \$17 with the alternative of two months' hard labour.

When a Comma Cost £100,000

What Omission in Treaty Meant

The importance of the comma was discussed by the Joint Committee of the House of Lords and the House of Commons, which considered the Public Health (London) Bill.

According to the evidence, published as a Blue Book recently, the question was raised whether a clause dealing with children was properly punctuated or needed more commas.

Mr. Clement Davies—The great art of conveyancing was to be able to draft without any comma at all, but unfortunately those days have gone, and Acts of Parliament are not drafted in that way.

Turning to a witness, Mr. Davies asked, "Do you remember a treaty where a comma cost this country a lot of money? We had to pay the American Government some £100,000 because of the omission of a comma."

Eventually all the commas proposed by Mr. Davies were inserted in the clause.

REPORT ISSUED

The annual report of the Hong Kong Civil Service Cricket Club states that the profit on the bar account for the year amounted to \$2,201.10, representing gross profit on cost of 33 per cent, and after deducting direct bar expenses, 15 per cent net.

The billiard account reveals that the introduction of a billiard section to the Club's activities has been fully justified. The loan from Members, who financed the scheme has been redeemed. The net profit of the Table, \$789.45, has been transferred to Income and Expense Account, of which \$600, the cost of the Table, has been capitalized and appears as an Asset.

The excess of income over expenditure carried to reserve is \$1,606.54. In addition to the acquisition of the Billiard Table, the liability incurred on the purchase of the Frigidaire and Gas Heaters, viz. \$581.48, has been discharged during the year. The Building Loan Liability has been reduced by \$300, leaving a balance of \$1,425 of which provision of \$320 is carried in Building Loan Reserve.

The Club properties have been fully depreciated, \$1,399.50 having been written off General Reserve. Results of competitions were as follows:—

Cricket—First Team—Bartling, J. E. Richardson; Bowling, F. Baker. Second Team—Bartling, F. J. Ling; Bowling, N. Whitely.

Lawn Tennis—Club Championship—E. C. Fincher; runner-up, E. L. H. Shute.

INCIDENT
AT PAKHOIImperial Government
To Take Matter Up

Mr. Toyochi Nakamura, Japanese Consul at Canton arrived in the Colony yesterday on board the "Chichibu Maru," for a few hours' stay before leaving for Canton on the noon train.

The Consul was in Japan when the Pakhoi incident occurred. Satisfaction was expressed by Mr. Nakamura on receipt of news that the 18th Route Army had agreed to withdraw and allow the Japanese and Chinese investigators to continue their work.

"The Pakhoi incident is regarded in Japanese circles as a national incident which originated in the anti-Japanese feeling widespread throughout China," said Mr. Nakamura. "The Imperial Government will take it up as a national incident. In Japan there are many who desire more friendly relations with China but they have been disappointed by the series of events at Chengtu and Pakhoi."

Mr. Nakamura said that Japan was entitled to investigate "this murder of a Japanese subject and to protect the wife and children of Nakano, all of whom are Japanese subjects."

DINNER DANCE

A dinner dance will be held on the Open Roof of Repulse Bay Lido. Weather permitting—and at the Repulse Bay Hotel in event of bad weather, on Saturday, September 19 at 9 p.m., and the usual tea dance will be held on Sunday, September 20, at 5 p.m., at the Repulse Bay Hotel.

MR. ALLAN KEITH
DIES AT HOMEWas Colony Resident
For Many Years

RETIRED LAST YEAR

News was received yesterday in the Colony of the death of Allan Keith, a former well-known local resident, who retired from business only in February last year. The late Mr. Keith who was in indifferent health for some time prior to his retirement, passed away on Thursday in a London nursing home.

The deceased first came to the Colony for Messrs. Shewan Thomas Ltd., 25 years ago and has been connected for the past 24 years with the Green Island Cement Co., Ltd.

The late Mr. Keith resigned his post as Secretary of the Cement Company on December 31, 1934 and at the 46th Ordinary General Meeting of the Company, held on May 1, 1935, Mr. J. H. Tugart, Chairman, said: "I desire to refer to the recent departure on retirement of Mr. Allan Keith, who served this Company for 24 years during which period Mr. Keith devoted his life to the interests of the Company, which he served with unremitting ability and loyalty and I feel confident that in expressing the thanks of the Board, I am also voicing the views of shareholders for the services rendered by Mr. Keith to the interests of this undertaking."

The flag at the Hong Kong Club was flown at half-mast yesterday as a mark of respect. Deceased was an active member of the Club.

KOWLOON TIGER

The Editor.

"Hong Kong Daily Press."

Dear Sir,—Having read your news item this morning about the "Return of the Kowloon Tiger," I should like to confirm having seen the pad marks of some obviously large animal on the catchwater footpath near the Kowloon Reservoir on Wednesday evening.

The prints had evidently been made when the ground was wet as they are now set hard and are very distinct.

Yours truly, J.S.S.
Hong Kong, 18th Sept. 1936.

OFFICIAL
WELCOME TO
AMBASSADORGuard Of Honour
InspectedSIR H. KNATCHBULL-
HUGESSEN

An official welcome was given to the new British Ambassador, Sir Hugh Montgomery Knatchbull-Hugessen, on his arrival ashore on Sept. 14, from the s.s. Chitral, on which he sailed from Kobe. Sir Hugh received official on board ship at 10 a.m., and at 11 o'clock he inspected a guard of honour from the Lancashire Fusiliers drawn up in the grounds of the British Consulate. Wearing morning dress, the new Ambassador, accompanied by Brigadier A. P. D. Telfer-Smollett, Commanding the British forces in Shanghai, Capt. T. G. Rennie, and Ground-Captain R. P. Willock, Air Attache, inspected the ranks, and then took up a position near the main entrance. The detachment then marched past.

Among those who witnessed the ceremony were Sir John Brennan, Mr. H. A. Scott, Canadian Trade Commissioner, Mr. R. Calder Marshall, President of the British Chamber of Commerce, Mr. P. W. Massey, Mr. E. B. Boothby, Mr. R. G. Howe, Mr. A. D. Blackburn, Mr. W. G. C. Graham, Mr. S. H. Tong, Secretary of the Shanghai City Government, and Miss Hilda Yen, representing the Shanghai office of the Wachiaopu.

Also watching the ceremony were Lady Knatchbull-Hugessen, her two daughters, the Misses Elisabeth and Alithia Knatchbull-Hugessen, and the wives of consular officials.

CHARITY CONCERT

The charity concert arranged to take place at the Craigflower Cricket Club will be held on Sunday, September 27, at 8.15 p.m., instead of on Saturday, September

HIGH GRADE
WHISKY ON
MARKETAustralian Product
Finding Favour

A whisky that is making a name for itself on the local market following its introduction only two months ago, is "Old Court" whisky, which is brewed and bottled in Australia. Connoisseurs of good whisky have commented favourably upon the brand and distinct flavour of "Old Court."

The whisky is an Australian product brewed in the federal distillery at Port Melbourne. Other plants are situated in Dunstons, and Warrener.

It has been stated that the Corio distillery near Geelong, "is totally different from any other distillery." It is, in fact not only unique for Australia, but the whole world. It has had none of the disadvantages of older distilleries which have had to be added to and modernised from time to time.

MODERN PLANT
Under the supervision of men with world-wide reputations, it is the most up-to-date plant of its kind. And the choice of site for the Corio distillery had more than pleasantness and picturesque to recommend it. Consider the question of water supply—a vital one in the distilling of whisky. Close at hand to Corio are the Otway Ranges in which rises the Barwon River. Of all the colder streams in Australia the mountain waters of the upper reaches at the Barwon were found to be the most suitable for the production of a truly high-grade whisky.

The scrupulous care in the selection of water used in the distillation of Treble "A" is indeed characteristic of the thorough methods of the Corio distillery.

Only the best of Australian barley is used, while the malting is carried out at Dunstons, almost 2,000 feet above sea level, using spring water from the slope of Mount Warrener. In great warehouses are stored oak casks with millions of gallons of whisky, which have lain for years slowly maturing against the time when they will be bottled and sent the length and breadth of the world.

The sole authorised agent for Hong Kong and China, is Caleb Cheong & Co. Hong Kong Hotel Room No. 405. The distributing agent is Tai Wo Compropre, No. 10 Hankow Road, Kowloon.

CHRISTMAS
PANTOMIMEProduction At
Y. M. C. A.

It is strange how things change! Early Christian writers denounced pantomime as being irreligious and immoral, and to-day we find one of the leading Christian institutions in this Colony, the Y.M.C.A., sponsoring the annual production of a "panto." We also have it on reliable authority that the book for "Jack and the Beanstalk" which will be produced this Christmas has been written by none other than one of the local ministers, the Rev. J. D. MacLean, of Kowloon Union Church.

Preparations for "Jack and the Beanstalk" are now well in hand. Mr. Wm. Robertson will again be producer and we hope to see many old stars shining in new places.

The new Amateur Dramatics Committee, elected at the annual meeting on Thursday consists of the following:—W. Robertson, D. K. Paul, W. J. Brown, F. D. Angus, Rev. J. D. MacLean, J. J. Ferguson, R. Bates, T. R. Ingram.

IN MEMORIAM

The Hon. Treasurer of the Society of St. Vincent de Paul acknowledges with gratitude and thanks the receipt of the following donations to the Society's Funds in memory of the late Mr. Henrique Arnaldo da Silva: From various friends per Mr. G. Japan's Export Levies

Negotiations between Australia and Japan for the settlement of the "trade war" reopened recently but the dislocation of trade during the last two months is likely to have permanent effects.

It has given an impetus to the movement in Japan for the control of exports, and since the beginning of August the export of rayon goods has been brought under a scheme that may be adopted by other industries. The principle is a levy on exports from which to subsidize measures for adjusting unbalanced trade with foreign markets. Levies have been imposed on rayon goods for certain markets for some time, but the latest general control measure is the imposition of a levy of one sen (or a seventh of a penny) a yard, which is said to be about 3 per cent on the cost.

Its primary purpose is to meet part of the cost to Japan of her self-denial in taking less wool from Australia. The gap has to be made up of higher-priced substitutes, and, since the dispute is a national one, the wool-consuming industry and the wool importers are to be assisted by the exporting trades. Thus, according to Japanese calculations, if Japan transfers her orders for 250,000 hales of wool from Australia to other countries she will have to find something like £500,000 more, of which the levy on rayon exports will contribute half. It is being said, however, that other exports should also bear some of the burden, and cotton piece goods are said to be next in the line. If the dispute with Australia is settled quickly and Japan gives up her idea of restricting her purchases in the cheapest market there may be no call for heroic measures. But now that the principle is established, and has the strong support of the Government, it will hardly be dropped; it is too convenient a method of financing economic diplomacy.

Alarming Incident In Baguio

TEAR-GAS BOMB EXPLOSION

President Quezon Remains Calm

SOLDIER'S ACT

Manila, Sept. 18.

A tear-gas exploded in front of the Officers' Service School at Baguio this morning immediately after the entrance into the building of President Manuel Quezon who was attending the graduation ceremonies.

The guard shouted "Gas!" A wild stampede for the doors started. However, Senator Quezon and his wife remained calm, although compelled to protect their eyes with handkerchiefs.

A preliminary investigation reveals that a soldier picked up the bomb and in ignorance he pulled out the cap. When the gas began to emerge he threw down the bomb and ran away. The investigation is proceeding.

GEN. LI CHUNG JEN AT CANTON

Welcomed At Aerodrome By High Officials

Nanning, September 17.

Generals Li Tsung-jen, Wang Shao-hung, Ching Chih and Civil Governor Wang Kuk-chor left for Canton by airplane at noon to-day, and on arrival at Canton at 3.50 p.m. they were welcomed at the aerodrome by all high and civil military officials of the Canton Government.

General Li Tsung-jen shook hands with Generals Yu Han-mow, Chin Ta-kwan, Heung Hon-ping, Civil Governor Wang Mo-chung and many others, his face beaming with smiles. In fact, all were smiling. He was immediately taken to the Tai Ping Hotel for a rest and refreshments.

After partaking of refreshments, General Li Tsung-jen proceeded to his private residence at Tong Shan for a much-needed rest.

Owing to the necessity of General Pei Chung-hsi's presence in connection with the settlement of important military affairs of the Kwangsi Province, he was unable to join the party for Canton.

It is reported that on learning of General Li Tsung-jen's safe arrival, Marshal Chiang Kai-shek immediately sent a special messenger to Canton inviting General Li to meet him at Whampoa.

INAUGURATION CEREMONY

Generals Li Tsung-jen and Pei Chung-hsi have issued circular telegrams announcing their assumption of office and declaring their allegiance to the Central Government.

It is said that over one thousand officials and peoples' representatives attended the inauguration and oath-taking ceremony at Nanning on the 18th instant.

General Ching Chih, in his opening speech lauded the meritorious services of Generals Li Tsung-jen and Pei Chung-hsi and exhorted them to continue to serve the Government and the country to the best of their ability.

It is reported that General Li Chai-shum and Tsai Ting-kai have not left Kwangsi for Hong Kong, as previously reported.

WHAMPOA AS SEAPORT

Development Scheme To Be Undertaken

CANTON-HANKOW RAILWAY LINK

Canton, Sept. 18.

The development of Whampoa into a modern seaport had been specially emphasised in Dr. Sun Yat-sen's "Programme for the Construction of the Nation," and when the National Government had its seat in Canton in 1918, preparations had been made to carry out this project, but nothing material had been done as leaders of the Government were at that time too busily engaged with the work of the Northern Expedition. This question was revived, however, two years ago and the responsibility for the realisation of the scheme was placed on the shoulders of the former Minister for Foreign Affairs, Dr. Lo Wen-kan, but as General Chen Chi-tang, whose word was law in Canton at that time, did not show much enthusiasm in the matter and the Central Government were helpless in speeding it up, Whampoa today is still as it was ten years ago.

The completion of the Canton-Hankow Railway, coupled with the settlement of the imbroglio of the provinces of Kwangtung and Kwangsi, has prompted the Government that the development of the port is imperative.

Marshal Chiang Kai-shek had also shown his keenness in the matter when he summoned the Minister of Railways, the Mayor of Canton, and the managers of the Canton-Hankow and Canton-Kowloon Railways for conference at his headquarters.

WHARVES AND GODOWNS

It has now transpired that the Ministry of Railways will appropriate a sum of \$10,000,000, mainly for the purpose of building wharves and godowns there. Mayor Tsang Yang-fu has been appointed as the Director of the Whampoa Development Board. Preparations for the establishment of the offices of the Board are being made and tenders for the building of the wharves and godowns will soon be invited.

It is learned from responsible quarters that the Mayor has scheduled one year for the completion of the work.

On the other hand, the work for the extension of the Canton-Hankow Railway to Whampoa is carried out with even greater agility. Mr. Ling Hsiung-fan, Managing Director of the Line, and Mr. Wang Yin-kang, Vice-Managing Director, called a meeting of engineers to consider the plan of the new line which had been presented to their predecessors. They came to the conclusion that some changes had to be made. Surveyors will be set to work shortly and it is expected that the changes will render the line to be less circuitous so as to minimise the expenses of construction. At an interview with Mr. Ling Hsiung-fan, it is revealed that construction of the new line is independent of the Whampoa Development Board.

CHINESE PRESS ELATED

Historic Meeting At Whampoa

Shanghai, Sept. 18.

Prominence is given in the Chinese press to the arrival in Canton yesterday from Nanning of General Li Tsung-jen whose subsequent meeting with General Chiang Kai-shek at Whampoa was a historical one, marking as it did the reconciliation of two revolutionary leaders separated almost five years by political differences.

What is even more significant in the opinion of Chinese circles is the fact that the meeting signified the unification of China.

Kwangsi being the last province to come within the fold of the Central Government.

General Li Tsung-jen is expected to return on Sunday to Kwangsi where General Pei Chung-hsi is engaged in supervising the disbandment of 300,000 troops as an essential preliminary to realisation of Nanking's military, political and financial authority over the province.

PAKHOI SITUATION EASED

Canton, Sept. 18.

Dr. Tyau Cho-hsen, Special Delegate of the Ministry for Foreign Affairs, told a representative of Da-Dao News Service that the Pakhoi situation had been eased by the withdrawal of Major-General Oong Chao-huan's troops.

His secretary, Dr. Ling Hsiung-fan, who was sent to Pakhoi to investigate and failed to attain his objective on account of the agitation of the populace caused by the presence of the Japanese gunboat, Saga, proceeded to Hong Kong yesterday to rejoin the Chinese gunboat Fook On and headed for Pakhoi.

Dr. Tyau further stated that although the acting Japanese Consul-General in Canton called on him several times, the Japanese were now only entertaining the hope of making a thorough investigation of the matter before the question was brought through diplomatic channels. The Japanese investigating party, Dr. Tyau declared, were still staying in Pakhoi, and they would wait till Dr. Ling's arrival, whereupon they would co-operate in carrying out the investigation. "Since this is one of the minor incidents," Dr. Tyau went on to say, "there is every hope that it could be localised and no development need be feared."

Asked if there were any grounds for the persistent rumours that the Japanese aimed at the establishment of a consulate in the Island of Hainan, Dr. Tyau said it had not been voiced by the Japanese and should this be demanded, they were surely to be met with a flat refusal.

THWARTING JAPAN'S POLICY IN MANCHURIA

Joint Action Proposal Now Revealed

STIMSON'S TALKS WITH SIR JOHN SIMON

British Reluctance To Join Demarche

London, September 18. The unsuccessful efforts to persuade Great Britain to join the United States' active policy against the Japanese policy in Manchuria of February, 1932, is the sensational feature of Henry Stimson's "The Far Eastern Crisis," which was published today, in which he says that he thrice spoke to Sir John Simon over the trans-Atlantic telephone, urging that the Japanese action had imperilled the whole of world peace and a system of international co-operation to prevent the success of her policy was vital.

"I was finally convinced by his attitude that the British government was reluctant to join such a demarche. I therefore pressed no further," says the author.

Mr. Stimson proposed to invoke the Nine-Power Treaty against Japan and believes that the influence of the City of London has been an obstacle in the path of British action. He shows that America was not only willing to collaborate with the League, but willing to act ahead.

The acceptance by the Powers at Geneva of the principle of non-recognition of territorial acquisitions as a result of aggression, was due to America's insistence.

Mr. Stimson pays tribute to the value of subsequent British co-operation and says that the chief defeat in the League was that it was tied by the Treaty of Versailles and thus "was made the agency of an attempt to preserve the status quo in a situation which required a change of growth."

He urges the need of Anglo-American co-operation for the maintenance of world peace.

DENNY BROWN STABILISER

Device To Prevent Rolling Of Ships

TEST CARRIED OUT

London, Sept. 18. A test of the Denny Brown stabiliser, to prevent the rolling of ships in rough seas, was held yesterday off Ventnor, Isle of Wight, and was attended by representatives of the Admiralty, the Board of Trade, the Japanese Navy, the American and Brazilian Embassies and several British and foreign steamship companies. The device has been produced by Denny's of Dumbarton and Brown Brothers of Edinburgh after three years of experiment.

It consists of two retractable fins, one on either side of the ship which can be worked like horizontal rudders. The stabiliser, it is claimed, will reduce rolling to such an extent as will provide comfortable conditions for all on board, except in very heavy weather. The features of the stabiliser were explained in a film shown on board the Channel steamer in which the tests were being made and it was stated that it could be fitted to ships of any size.

The stabiliser, which was tested yesterday, weighs only fifteen tons and costs between £7,000 and £9,000. The drag is said to be so slight as to reduce the speed of a nineteen knot Channel boat by less than half a knot and the makers state that this would be offset by the ability to keep a more accurate course in heavy weather.

FUTURE FRENCH POLICY

Premier Stresses Peace Desires

Paris, Sept. 17.

France unanimously desires peace; but she would also be unanimous to-morrow if it was a question of preserving the security of the Motherland, declared M. Leon Blum, the Prime Minister, in a speech broadcast throughout the country and abroad to-night.

France wants to coerce nobody; but she will not allow herself to be coerced, either directly or indirectly, by anyone. It is in this sense that she intends to approach the grave international discussions which are about to open, M. Blum went on.

France wishes to live in peace with all nations, whatever their regime.

She is endeavouring, M. Blum asserted, to reduce the causes of conflict between nations, from which some day might come war.

EQUALITY AMONG NATIONS

Paris, Sept. 17.

In an important speech, which was broadcast on Thursday evening, and later re-transmitted in English, German and Italian, premier Leon Blum in defence of democratic principles, summed up in the words: "Political liberty, equal rights for all citizens, fraternity between all men."

Turning to the question of foreign politics, Blum said that the French conception of peace was built up on the basis of self-determination, for all nations, equality among the nations, and fraternity in the sense of a progressive banishment of war.

France would accordingly use her influence at the forthcoming session of the League Council for a material disarmament within the framework of the League of Nations, she would renew her appeal against the armament race and for the co-operation of all nations.

The Premier concluded, by stressing the importance of security for France, who would maintain her independence and freedom of decision and would not submit to any kind of pressure, direct or indirect.

REARMAMENT IN BRITAIN

Labour Party Divided In Opinion

London, Sept. 17.

The British Labour Party may make a sensational about turn in policy, and support the Government's rearmament programme, according to present indications.

The National Executive of the Labour Party is meeting in London to-morrow to consider the international situation, and rearmament is likely to be among the questions discussed, in addition to the Spanish situation, with a view to drafting a statement of policy and a resolution for the annual conference at Edinburgh on October 5.

It is envisaged in some quarters that there may be a reversal of policy with regard to the Government's rearmament programme, but this is still a matter for discussion as some difference of opinion among the Labourites is said to exist.

SPECIAL MEETING

London, Sept. 18.

The National Executive of the Labour Party will hold a special meeting to-day to reconsider the attitude of the party towards the international situation and the Government's Defence Programme. The discussion will be a prelude to the preparation of a statement of policy to be presented at the Socialist Party conference which opens at Edinburgh on October 5.

KALIF'S ATTITUDE

("Hong Kong Daily Press" Special)

Seville, Sept. 18.

The Tetuan broadcasting station reports that on his return from a tour through the western parts of his Empire, the Kalif addressed the population, by whom he was enthusiastically welcomed, and declared that though officially neutral, he at heart is completely on the side of the Nationalist Government in Burgos. At a subsequent march-past of 4,000 persons, cheers were given continually for the Kalif and the Spanish Army.

FLEET MUTINY REPORT

Paris, Sept. 18.

Mutiny is reported to have broken out in the Spanish Government's fleet assembled at Malaga, according to a broadcast from the insurgent-controlled radio station at Tenerife.

This station asserts that, following a difference of political opinion, the warships from Malaga met at sea to consider the situation. It was decided that they had been deceived by the Madrid Government.

Some of the crews decided not to continue fighting and to surrender to the insurgent Junta unconditionally. Others refused to agree to this step.

As a result of the disagreement shooting broke out and resulted in 250 deaths.

INSURGENT CLAIMS

London, Sept. 17.

The Spanish war news to-day largely consists of the insurgents' claims to having captured the hill town of Ronda, bulwark of the loyalist lines in the Malaga region. But well-informed circles in La Linea discredit this claim.

Recent visitors to Malaga are of the opinion that that city is not likely to be captured speedily. They state the position of the Government forces has been difficult owing to a shortage of ammunition and petrol but large consignments of arms and ammunition are expected to arrive at Malaga by sea to-morrow.

FRENCH STRIKE SITUATION

Textile Trouble Settled

Paris, Sept. 17.

Settlement of the Lille textile strike is now in sight and it is expected that an agreement between employers and employees will be signed to-night.

It is understood the workers made considerable concessions on the question of the appointment of workers' delegates in the factories, which was one of the difficulties in the way of settlement.

The employers are understood to have compromised on the wage increase demand. Wages will be fixed on a scale applicable to all other textile towns, it is stated.

M. Salengro, Minister of the Interior, announced to-night that an agreement had been reached in the textile dispute and that only a few details remained to be settled.

The textile agreement includes a six per cent. increase in wages. It is expected that occupied factories in Lille will be evacuated to-morrow.

GREAT TRIUMPH

Paris, Sept. 17.

A settlement in the Lille textile strike has been reached and is regarded as a big triumph for the Government. It is felt that if the spirit of conciliation displayed spreads to other parts of the country, France's labour troubles will soon disappear.

DIFFICULT SITUATION CREATED

League Refusal May Lead To Legal Battle

("Hong Kong Daily Press" Special)

Paris, September 18. The "Oeuvre's" foreign political correspondent, Madame Tabols, whose views always command hearing, it being well-known that she has specially authoritative sources of information, writes on Friday, that if the agenda of the forthcoming session of the League Council should contain a discussion of the Italo-Abyssinian conflict, considerable difficulties are bound to arise.

The Abyssinian Government could make the League's refusal to admit its delegation to the League's proceedings a basis of a juristic fight, through which the legal authorities of the League would be put to a severe test.

Moreover, in Geneva one is not certain whether international complications might not arise through the action of the Spanish delegation which, happily upon arrival, assured the French Government that it had no intention of making the Spanish civil war a subject of discussions at the League of Nations session, but stipulated that the Spanish delegation on the other hand should not be made to suffer provocations.

SPANISH RIGHTS

But from a practical point of view the Spanish delegation, for two reasons, has the full right to bring the civil war before Geneva's forum:

1. Because of the attitude certain powers towards the Madrid Government, particularly Portugal which openly is supplying the Nationalists with arms and allowing the Nationalists to use Lisbon as military headquarters.

2. Because the non-intervention proposals initiated in London and Paris need the consent of all powers before it is legally binding.

SHOP COMMITTEE

Paris, Sept. 17.

Negotiations in the textile industry ended on Thursday evening with a settlement of the dispute. According to a statement by the Minister of the Interior, Salengro, the workers accepted the wage increase of 5 per cent. instead of 10 to 40 per cent. as originally demanded. They were however able to carry through the intention of creating a shop committee.

The occupied factories it is understood, will be evacuated on Friday or Saturday at the latest.

The strike in the engineering trade is still spreading, however, since the employers did not accept the Government's arbitration and a "stay-in" strike has been organised at many places.

NAVAL RACING AT KIEL

Britain's Big
Handicap

SAIL TRAINING NEEDED

The first of the International Naval Sailing Races for the Hindenburg Challenge Cup and other prizes, sailed at Kiel recently, in yachts of the International Star Class, provided by the Marine Regatta Club had to be abandoned because of an almost complete absence of wind.

Judged by points, the end of Tuesday's racing left Sweden with 11 points in three races; Italy, 10½; Germany, 8 (in two races only); Britain, 6; Poland, 4½; and Holland, 3½. Germany, Sweden, and Italy, having each won one race had to sail again on Wednesday, and in the end the Hindenburg Cup went to Italy, a victory that was thoroughly well deserved.

These naval races will be held in Kiel in succeeding years, and it is eminently desirable that British naval officers should again compete. Lack of opportunity for practice, however, is a great disadvantage, for in England yachts of the Star Class are very rare, while yacht racing among naval officers, though encouraged, is in no sense officially recognised. Nor is it likely that the newly-formed Royal Naval Sailing Association will be able to provide the funds for buying yachts.

GERMANY'S LEAD

In the Dutch Italian and German Navies, however, a knowledge of yacht and small boat racing by naval officers is officially regarded as most desirable, and Dutch and Italian cruisers actually carry Star Class yachts as part of their equipment. Germany, and various other countries have sailing vessels for the training of officers and men in sail seamanship; but Germany comes far ahead of all others in officially maintaining over two hundred sailing yachts of various types in her naval ports for the use of naval officers. These fly the burgee of the Marine Regatta Club.

Seagoing cruising and racing yachts of sail areas of fifty and thirty square metres, accommodating six and four people, are allotted to all flag and senior officers holding shore appointments. Star boats and monotype dinghies to their juniors. These are provided and maintained at the expense of the Government, with the consequence that most German naval officers are expert yacht and boat sailors, while much of the yacht racing in the country is done under the auspices of the Marine Regatta Club, which is naval.

DEATH OF COUNTY CRICKET CAPTAIN

"Error Of Judgment"
By Motor-Cyclist

An inquest was held on Sept. 2 at Cirencester on Mr. D. A. C. Page, the Gloucestershire cricket captain, who died in Cirencester Hospital following a collision between his car and a motor-cycle.

A verdict of death from internal injuries was returned with a rider that the motorcyclist committed an error of judgment, which was negligence, not amounting to criminal negligence.

William T. Herbert, of Stratton, Cirencester, who was with Mr. Page in the car was brought from the hospital to give evidence. He had a bandaged head and was attended by a nurse.

He said they were travelling at about 85 miles per hour. He saw a motor-cycle coming up the Dunstonsbourne Abbotts-road, into the main road, and thought he was going over to the left-hand side of the road. But the cyclist did not continue across and seemed to hesitate after he had got to the middle of the road.

Mr. Page swerved to the left of the motor-cyclist and the next he knew was that they were careering along the grass verge and hit a wall.

Robert John Kibb's, the driver of the motor-cycle, stated that he heard a car coming behind him, and thought it was passing him on his right-hand side, as the motorist had a 14-foot roadway. The car struck the motor-cycle behind and knocked him across the road.

"WE HAD BAD LUCK" SAYS MR. HYDE-LAY

Colony Bowlers Return From Shanghai

Northern Greens Much Faster Than Here

"I am convinced that no Colony team, however strong, could have beaten the second Shanghai Interport rink" said Mr. A. Hyde-Lay in an interview with a representative of the "Daily Press" after his arrival with his team mates in the Colony by the "Chichibu Maru" yesterday.

"They played a remarkable game with amazing accuracy. If our luck had been a little better during this game, we might have been only beaten by ten to fifteen shots. As it is the score against us looks terrible. The game, however, was keen, with our men doing the best against the strongest combination possible to field in Shanghai."

Mr. Hyde-Lay confirmed the impression that Hong Kong should have won the first Interport match but for ill-luck. On the second last head, with the score reading 15-16 against Hong Kong, the Colony skipper said that he attempted to drive Shanghai's laying shot away. He partially succeeded but the jack wicked off to lay next to a Shanghai's wood which was surrounded by five Hong Kong woods. With better luck the Colony would have obtained five shots.

BAD LUCK

"We had surprisingly bad luck in the first Interport game. This has generally been admitted by Shanghai bowlers. Throughout the visit Hong Kong players came up to scratch in the Interport en-

counters. Five friendly games were played but in some of these the Hong Kong men were slightly below standard. Four senior sides to Shanghai could not get a game against us, as there was insufficient time at our disposal. To get over this difficulty, teams were drawn out of the hat to play against us."

"We found the greens difficult to become accustomed to as they are very fast. Personally, however, I prefer the Shanghai greens to those in Hong Kong" said the skipper.

The Hong Kong team comprising A. E. Coates, H. A. Alves, P. E. Knight, F. C. McGowan, F. V. V. Ribeiro besides A. Hyde-Lay looked very fit, and all stated that they had had a splendid time. Shanghai had lived up to its name in hospitality which was well-nigh overwhelming.

COLONY BOWLERS WIN FINAL MATCH

Hold Advantage Through Majority Of Game

SHANGHAI TEAM OFF FORM

Showing greatly improved form, the Hong Kong Interport lawn bowlers defeated Shanghai by twenty shots to thirteen, on the Rees green, on September 14 to win the third and final match. The Colony four were—H. A. Alves (skip), A. Hyde-Lay (No. 3), F. V. V. Ribeiro (No. 2) and P. E. Knight (lead). Shanghai were represented by—G. V. Jensen (skip), J. P. de Campos (No. 3), H. G. Howard (No. 2) and W. T. Manley (lead). H. A. Alves, the Hong Kong skip was the hero of the match, playing inspired bowls. He was easily the best man on the green, and he was ably supported by F. V. V. Ribeiro and A. Hyde-Lay. The Shanghai four were in poor form.

The Interport dinner was held at the Shanghai Club the same night. Mr. W. A. Turnbull, President of the Shanghai Lawn-Bowls Association, being in the chair, and some fifty odd bowlers present. The trophies won during the season and the "Prentice" Cup were presented. During the evening some excellent film of local bowling were shown by Mr. E. Hodgson and there was an enjoyable musical programme.

THE MATCH

The green was not very good, with one bad patch where the woods ran up perfectly straight, playing to the South end on the fore-hand, which made it very difficult. A shower fell during the early part of the game but did not materially affect play, though sent the spectators scuttling for shelter. The large crowd present were amply rewarded, however, by seeing a good game that was always interesting.

Hong Kong won the toss, and Knight laid down a three-quarter length Jack, and laid a touchers one yard through and was through with his second. Manley was through with his first and short with his second. Ribeiro was narrow and short with his first but drew the shot with his second. Howard took him out to lay two. Hyde-Lay was through and short with his second. Campos was short. Alves missed with a fast one but drew a beautiful shot for the counter with his second. Jensen failing to save, being short on the front woods. At the 2nd end, Knight was one yard through and two feet short with second. Manley was narrow. Jack high. Ribeiro was two yards short and wide with second, and Howard was two feet through on back woods. Hyde-Lay drew shot. Campos was wide and in ditch with second, while Alves was wide through with first but drew shot one foot from Jack. Jensen drew second and was narrow with his second.

Thus early in the match it was seen that Hong Kong were a vastly improved four and Shanghai had started badly. The 3rd also went to Hong Kong with a single. Knight was two feet short and Jack-high with second. Manley put down two bad woods as did Ribeiro. Howard had a touchers one yard through and was short with second. Hyde-Lay drew a beautiful shot on Jack and laid a good back wood with his second. Campos was short. Alves laid down guards, while Jensen had a touchers for second wood but was narrow with his second.

GOOD WOOD

At the 4th Knight was short and Manley narrow. Ribeiro drew shot. Howard lay second. Hyde-Lay drew shot, and Campos cut him out with a good wood for shot. Jensen drawing second. Alves narrowly failed to save, taking out Jensen's wood. Shanghai getting the end with a single, their first score.

The 5th went to Hong Kong with a single, score 4-1 in their favour. Manley in ditch. Jack high shot. Knight was two feet short in ditch. Ribeiro was short, and Campos was wide short and hit one of theirs in with his second. Hyde-Lay made a touchers one foot through for shot and had a wick in for third shot with his second. Jensen with a heavy one saved two and was wide with his second, Alves laying down guards.

The 6th went to Hong Kong with a two. Knight and Ribeiro's woods counting. Alves laying down guards. Jensen failed to save as, when he had everything to gain, he was short.

The Colony also took the next end with a single. Alves with a beautiful wood drawing the shot, cutting Shanghai out of four score at 7th, 7-1 in their favour. So far they had absolutely outbowled

Shanghai, but the latter suddenly found their form in the next few ends and made a great recovery to take the lead at the 12th for the first time by 11-8. It was, however, only a flash in the pan. From then on they failed and failed badly. Shanghai took the 8th and 9th with two's. Howard and Campos bowling well. The 10th went to Hong Kong with a single. Ribeiro laying down two fine shots being the counter. Alves guarded and Jensen put down two bad woods, being through and narrow. Shanghai came back with two thurs at the 11th and 12th. At the 11th Manley and Howard's were the counters. Alves put down two bad woods, the only end in the match that he failed on. With a perfectly open end Jensen could have added to the score, but with everything to gain he was short. At the 12th with Hong Kong laying a bunch, Jensen trailed the Jack for three.

SHANGHAI FAILS

The Shanghai four then went to pieces and failed to score for six ends. Hong Kong getting two singles, a two, a single, a two and a single, bringing the score at the 18th 16-11 in their favour. Alves, Ribeiro and Hyde-Lay were playing great bowls, only Knight being weak. At the 19th Shanghai got a two, Howard putting in two good shots. Again with every chance to increase the score, the end being open, Jensen was short. At the 20th Alves missed with a heavy one but with his second he drew a magnificent shot, cutting Shanghai out of three.

The final end went to Hong Kong with a three. Jensen failing to save, being wide with both of his woods, Hong Kong winning a well deserved victory by 20-13.

For the winners, H. A. Alves their skip, deserves every credit for bowling a great game, he showed himself in this match to be a bowler who should go far in the game. He was ably backed up by F. V. V. Ribeiro, who bowled well, was always dangerous, and materially added to Hong Kong's win. A. Hyde-Lay, their No. 3, in spite of a few loose ends in the early part of the match, also played a fine game, and he combined magnificently with his skip. P. E. Knight, their lead, was the weak member of the four. He started well, outplaying his opposing number, but then fell right off.

LOSS TO POLICE FOOTBALL

Chris. Pile Going On Leave

Chris. Pile, well-known sportsman of the Hong Kong Police Force, is proceeding on home leave to-day aboard the P. and O. liner Chitral. He will be greatly missed by the Police senior league football team during this season as he is one of the stalwarts in their defence.

Pile is a splendid footballer and in January last played in the victorious Hong Kong Interport team that defeated Shanghai at the Canidrome. He played at right back.

Besides his prowess in the football field, Pile is an accomplished billiards and tennis player and is also a member of the Police hockey team where he plays on the right wing.

He is the younger brother of Tom Pile, another well-known local footballer and member of the Police team.

Chris. Pile previously played for the Kowloon Football Club before he joined the Police Force five years ago.

McLean In Semi-Final Round

Garden City, Long Is., Sept. 17.

J. McLean (Britain), Johnny Goodman (U.S.), Fischer (U.S.) and Voigt (U.S.) are the semi-finalists in the United States open amateur golf championship as a result of to-day's fifth round and quarter-final matches.

McLean enjoyed a brilliant fifth round victory over Neville Heath, beating him 6 and 4. But John Langley, the other surviving Englishman, failed against Goodman, losing by 5 and 3.

Riddell, who was beaten by McLean in the quarter-finals, returned a card of 73, equalling par, in the fifth round, the same score being sent in by Toller, who was beaten by Riddell. These are the two best rounds of the tournament to date.

The full results of to-day's matches follow:—

FIRST ROUND

Ray Billows beat Lawrence Lloyd 4 and 3.

Johnny Goodman beat John Langley 5 and 3.

Russell Martin beat David Davis 3 and 2.

Fischer beat Moreland one up.

Voigt beat Robert Fraser 4 and 3.

A. Campbell beat William Holt 3 and 2.

J. McLean beat Neville Heath 6 and 4.

John Riddell beat Thomas Toller at 20th.

QUARTER-FINALS

J. McLean beat J. Riddell 3 and 1.

J. Goodman beat R. Billows 2 and 1.

Fischer beat Martin 6 and 4.

Voigt beat Campbell 4 and 3.

OXHEY TOURNEY

Surprise Defeat Of Percy Alliss

Oxhey, Sept. 17.

Dai Rees, a young Welsh assistant professional of Surbiton, and Ernest Whitcombe, one of the famous family of golfing brothers, will contest the final of the "News of the World" £1,250 golf tournament here.

To-day Rees surprisingly beat Percy Alliss in the semi-final by 2 and 1, while Whitcombe beat Taylor 3 and 2.

In the fourth round Rees beat Sutton 4 and 3, Alliss beat Charles Whitcombe 4 and 3, Ernest Whitcombe beat H. Osborne of Addington 3 and 2, and Taylor beat W. Collins, jun., of Sandway at the 19th.—
Reuter.

Only on the last end did he again come into the picture with two fine shots.

Of Shanghai, in the first place the positioning of the four was bad. They would have made a much better rink had Howard been played at No. 3, instead of No. 2, his wrong place, and Campos at No. 2.

YESTERDAY'S OFFICIAL QUOTATIONS

In spite of the near approach of the Settlement the local market has been very buoyant and business has been brisk. Utilities have provided the principal feature with some notable improvements and closed with an unsatisfied demand. The market continues active in all departments and the tendency is still upward.

The Philippine Mining section opened firm and active with a fair turnover, but subsequently there was a set-back in most issues. However, according to latest cabled advices from Manila there has been a smart recovery in values and the market closed very strong.
